GNU Backtrack 5 R3 is a Debian GNU/Linux based distribution used for security and penetration testing. Backtrack is a free and open source penetration testing distribution based on Debian GNU/Linux and with some extra components from Gentoo Linux, targeted at security, sysadmin and pentesters. It is focused on working efficiently in a virtual machine, and contains precompiled binaries for several penetration testing tools and scripts. Features include: System tools: OpenSSH, GDB, htop, rkhunter, ufw, MySQL, Postfix, iptables, nmap, Zenmap, and more! Mapping/analysis tools: Nmap, Scapy, Yersinia, Wireshark, tcpdump, netcat, BackTrack Debugger, Metasploit, nessus, Gobby, Samba, Adobe Acrobat, Firewall Builder, Freedns, OpenSSH Fingerprint Generator, IpTables DNS Filter, WEBmin and more! Exploitation tools: Metasploit, Ettercap, Nautilus, Ethereal, Nmap, IDA Pro, Geth and more! Remapping tools: VirtualBox and VMware AntiVirus: ClamAV and Sophos OS Security: Tripwire, and more! FTP server: Curl, and more! Web browser: Google Chrome and Firefox Browser fingerprinting: Shodan Browser plugins: Adobe Flash, VLC, and more! Extra tools: Scache, Phishtank, Nmap, and more! The operating system has been codenamed BackTrack and officially released in March 2009. The project is based on Debian GNU/Linux and is developed by a team of volunteers. The project aims to provide a secure and realistic hacking environment for both security professionals and computer security enthusiasts. Software included in BackTrack include: Networking: vhost: Virtual hosting tool Web servers: Apache and Nginx web servers Internet services: DNS Email Wireless security: aircrack-ng The backtrack project and its developers have been vocal about the ethics of penetration testing, calling it “intellectually and morally sound” and not “a crime.” Backtrack provides the tools and knowledge to aid in penetration testing, pen testing and exploit development and research. Backtrack Linux has been used by many security and penetration testing agencies, journalists
