KEYMACRO was the first graphical, easy-to-use macro recorder to record, edit, preview, and playback macro actions. **KEYMACRO 8** now offers several new features, including improved record, playback, and edit. Support for Microsoft Office 2007 and new forms features allows a more natural and professional experience. For instance, you can create and modify actions quickly and

intuitively using an easy-to-use interface, powerful editing tools, and a powerful graphics engine. KEYMACRO 8 also adds a new feature that allows you to design actions visually, without needing to write any code. Even more, you can now access actions created with other applications. You can take advantage of this feature to seamlessly import keystrokes from another program. And to ensure that you never lose the time you have invested into your application, the application is a

powerful, yet easy-to-use app.

You will no longer need to spend hours and hours creating your own macro recorder. Screenshot:
